Welcome to Q-ID, your Password Vault

**Q-ID**  
PROTECTING YOUR PRIVACY

## Registration Step 1

set up your Master Password: the indicator below the password field will show the strength of the chosen password

display / hide password fields

The main registration form is displayed on a smartphone screen. It has a red header with the title "Registration" and icons for back, close, and help. Below the header, there are two sections: "REQUIRED FIELDS" and "OPTIONAL FIELDS". The "REQUIRED FIELDS" section contains two text input fields: "Master Password" and "Re-enter Master Password". Below these fields is a red bar with the text "No Password...". The "OPTIONAL FIELDS" section contains four text input fields: "Name", "Surname", "E-Mail", and "Hint". At the bottom of the form is a large red button labeled "CONFIRM".

This screenshot shows the registration form with a weak password strength indicator. The "Master Password" field contains the text "hfyk78aU". Below the "Re-enter Master Password" field, there is a red bar with the text "Password strength: weak! Your password may be cracked in 3 hours with current hardware. For more info: <http://www.q-id.net/info/FAQ>". The "CONFIRM" button is at the bottom.

This screenshot shows the registration form with a medium password strength indicator. The "Master Password" field contains the text "hfyk78a%U". Below the "Re-enter Master Password" field, there is a yellow bar with the text "Password strength: medium! Your password may be cracked in 21 days with current hardware. For more info: <http://www.q-id.net/info/FAQ>". The "CONFIRM" button is at the bottom.

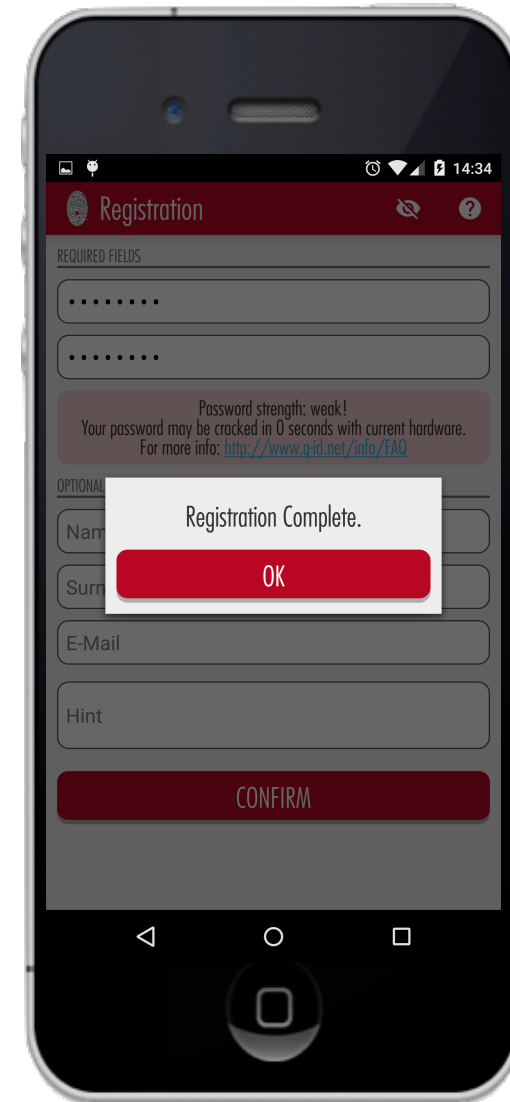

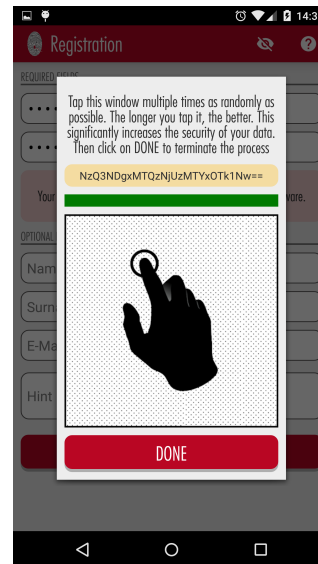

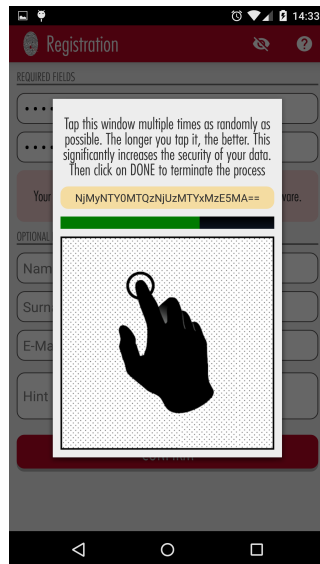

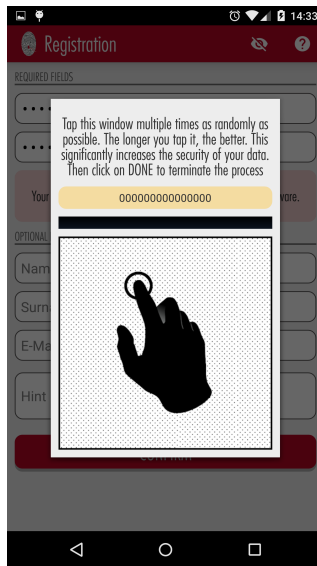

This screenshot shows the registration form with a strong password strength indicator. The "Master Password" field contains the text "hfyk78a%U5g". Below the "Re-enter Master Password" field, there is a green bar with the text "Password strength: strong!". The "CONFIRM" button is at the bottom.
